COMMONS CHEERS HARDING PROPOSAL ON DISARMAMENT

LLOYD GEORGE LAUDS UNITED STATES PEACE MOVE.

WAIT JAP REPLY

English Press Pleased: Cooperation Promised by Prime Minister.

[BY ASSOCIATED PRESS.] London. — President Harding's message, looking to the calling of an international conference on the limitation of armaments, has been received with the utmost pleasure by Great Britain, Mr. Lloyd George, prime minister, declared in the house of commons Monday.

Speaking on the subject of the American communication the prime minister said:

"I need not say that we welcome with the utmost pleasure President Harding's wise and courteous initiative."

"The house cheered and the premier added:

"In saying that I speak for the empire as a whole."

"The premier said China would be treated as an independent at the conference on the Pacific affairs."

World Looks to U. S. "The world has been looking to the United States for such a lead," Mr. Lloyd George declared, referring to President Harding's message.

"I am confident the house will esteem it as an act of far seeing statesmanship and will wholeheartedly wish its success."

"To effort will be lacking to make it so on the part of the British empire, which shares to the full the liberal and progressive spirit inspiring it."

Col. George Harvey, the American ambassador, was in the gallery to hear the prime minister's statement.

Lloyd George began his statement by referring to the Anglo-Japanese treaty. He said the Japanese government took the view that no notice of the armaments conference was necessary, and that this view also was held by Lord Curzon, the foreign minister.

The matter was referred to the lord chancellor, the prime minister declared, who, after a consultation with the law officers of the crown, held that no notice had yet been given and that the treaty, therefore, remained in force until determined.

However, Mr. Lloyd George said, the desire of both parties that the agreement be brought into complete harmony with the covenant of the League of Nations.

"When I told the house last Thursday I hoped to be in a position to make a statement on the Pacific and Far Eastern question today," the prime minister declared.

"I was waiting, as I expected replies to a conversation that had taken place between Mr. Curzon and representatives of the governments of the United States and China as a result of discussions in the imperial cabinet."

"I am very glad to be able to inform the house that the views of the government of the United States, which reached me last night, are extremely satisfactory. The Chinese government also replied favorably."

"POLLUTED CITIES" L. A. Gordon Hands Wallop to Soldiers in Course of Attack on Dance.

"There is something wrong back home when soldiers of this country, while in France a week or two before going into action and death, are drinking and dancing in the streets of the World, were 'drunken and immoral,'" declared J. A. Gordon, Madison, assistant secretary of state and president of the Young People's league of the eastern district, at the convention of that body Sunday afternoon.

"American soldiers polluted the French cities with immorality and wickedness," shouted the speaker. He attacked the dance as a "degraded and filthy thing."

"The thing which needs adjusting is this. There are too many boys given to teaching the children in the schools and too few hours of Bible study and work in the church school."

"This is the day when we need more of the spirit of God. There is a great need for the love of God in every person. Without the help of God we are all pieces of sinning humanity. We need to look forward to better conditions in this world. Think of the 7,000,000 soldiers who were kept down in the battlefields of Europe and the 30,000,000 who starved to death as a result."

His Dance Activity. He described dancing as the worst activity in this country, "knowing that."

SALOONS TO TAKE ON PARLOR ASPECT

Intention of New Dry Law Is to Eliminate All Bar-room Suggestion.

Madison. — The intent of the new prohibition law is to call for removal of bars is to "make Wisconsin saloons similar to ice cream parlors," Attorney General Morgan holds in an opinion given today to Fred Heinemann, district attorney, Appleton.

"The idea is to have tables and seats provided in the room at which the non-intoxicating liquors are consumed by the 'pure' patrons," the opinion declares. This is the first interpretation given the statute by the attorney general.

Clarification to the provisions against saloons is pointed out when Attorney General Morgan says that the law "does not in express terms prohibit the sale of such liquor at a coffee or bar so long as the purchaser is not permitted to consume the same at the said bar or counter."

This opens the way to the ice cream parlor effect with patrons consuming their beverage in the open.

"If an act is prohibited, it is to be open the place where non-intoxicating liquors are sold under a license, to public view, and to do away with the atmosphere of the former saloon," according to Mr. Morgan.

"A standing bar is a bar that was used in saloons at which liquor was sold and consumed by the purchaser while standing at the bar."

Mayor Welsh Starts on Plea for Economy in All City Business

"We have got to limit our expenditures, practice rigid economy and keep within the money that we have," said Mayor Thomas E. Welsh Monday when asked about the ability of the city to keep within the cash available for running Janesville the rest of the year.

The city financial balance of \$275,425 is considered an exceedingly small margin.

"It is a policy of sitting back and holding down the expenses of the city to prevent additional expenses and going into debt. I think we can do it. The city clerk will advise the council each month of exactly how much money we can use and keep out of debt."

Economy Big Issue. "Economy is the big issue with Janesville right now. Next year we are going to have materially increased expenditures, and every council meeting there is something coming up which if adopted would mean additional expense. It is time there was a halt."

It looks as though there will be a considerable reduction in assessment values next year and the new high school, together with other improvements, will increase. Something has got to be done to keep down the tax rate to a reasonable figure. We cannot sacrifice everything for the new high school or increased costs of education."

Assessment to Drop. It is estimated that the assessed valuation of Janesville will drop around \$4,000,000 next year. This includes decreased personnel property, especially in merchandise stocks and with the General Motors corporation.

The mayor declared that he hoped to put his official foot down on the "unnecessary expenses and expenditures" and require any expenditure which will take more than \$500 to be listed in the budget, which is made up in October.

"We want to be reasonable but at the same time we want to keep the city out of debt and with a reasonable tax rate," he said.

GYPSIES ABANDON HORSE TRADING; IT'S AUTOS NOW

The way of the Gypsy is no more by the horse. It's the automobile for him now.

The second caravan in a month went through here Saturday on the way to the northern part of the state. This one had three motor cars and a truck. During June, a caravan of autos passed through Janesville.

In the days before the gas buggy, the Gypsy was noted for his trading tendencies, especially of his horses. He still clings to that trait.

The dogs are bunched together. There was a mad scramble Saturday when the youngsters and their playmates were forced out while a blow-out was repaired.

EQUAL RIGHTS TO WOMEN REALIZED

Governor Blaine Signs Bill Extending Full Legal Equality in State.

Madison. — Wisconsin women gained every right possessed by male citizens under civil law when Governor John J. Blaine Monday signed the bill making this state the first extend full legal equality to its new voters.

The governor, with a black quill pen given him by the National Women's party, attached his signature to the measure which removes every restriction, even giving women the right to "wear trousers and stand on the street corners chewing tobacco," as senators said when discussing the bill in the legislature.

Equal Rights Given. After Monday, the women voters of Wisconsin "have the same rights and privileges under the law as men in the exercise of suffrage, freedom of contract, choice of residence for voting purposes, jury service, holding office, holding and conveying property, care and custody of children and in all other respects," the law reads.

The measure also gives women administrative officers shall construe the statutes where the masculine gender is used to include the female gender, unless such construction will deny women the special protection and privileges which they now enjoy for the general welfare." It further provides.

Ends Long Battle. Governor Blaine's signature ended a long fight waged by women members of the National Woman's party to secure passage of their bill.

Trouble was first encountered in the senate when the Bird amendment was attached withholding the right of contract. This was objected to as removing the vital part of the bill and was stricken out by the assembly.

The bill then was passed by a margin of one vote, unamended in the upper house.

"With Governor Blaine's signature on this bill, the republican party of Wisconsin redempts the pledge which it made to the women of Wisconsin in the 1920 campaign," Mrs. Frank Putnam, Wisconsin chairman of the National Woman's party, said.

TWO MORE SIGN UP FOR TRAFFIC BUREAU

With the addition Monday morning of two signers to take the service of the proposed traffic bureau of the Chamber of Commerce, only seven more are needed to put this department into force. It was stated by the chamber that the order for the needed firms, probably will be secured before the end of the week.

All the available members of the Eireann, or the Irish republican parliament, returned at the last election, met in private in the Mansions, near Victoria.

## ROCK COUNTY CORN CROP LOOKS HEAVY

Wind and Hail Fail to Spoil Prospects for Record Production.

Despite wind and hail, the corn crop in Rock county bids fair to exceed that of previous bumper crop years. Early planted varieties are tassling in Rock county and need a stretch of cool weather for the last stages of growth.

Tobacco in Rock county is improving. It is needed for the growing plants.

Crops in half of Wisconsin were benefited by the rains, while in the other half they are suffering from drought, according to the state agriculture department.

Most of the southern Wisconsin farmers are now engaged in harvest of small grains and farm field work is at least two weeks early. The yield in the state is reported as average. Winter wheat is from fair to poor, and other grains giving a small yield because of drought and rust damage. Livestock is being turned into the fields in eastern counties, so poor is the crop.

Hail has nearly all been harvested. Mixed clover and the timothy cut all over the state has been below average. The alfalfa cut for the first time has been the redeeming feature of the hay crop.

## SUNDAY DANCING AT PINES STOPPED

Police Warn That Repetition of Offense Will Mean Prosecution.

Sunday dancing at "The Pines," the much frequented dance resort on North Washington street, was stopped by the police and warning given that a repetition would mean court prosecution. Desk Sergeant Charles Dickerson visited the dance hall Sunday night and ordered that the music and dancing be stopped. "They should know better than that," said Chief of Police Thomas Morrissey.

They know now. Reports were general that the "Pines" would start Sunday dancing to swell weekly receipts to a more profitable amount. There was some expression of doubt whether the city had jurisdiction to stop the dancing on the Sabbath. Some one found out Sunday when the patrolman arrived.

There were only a few couples dancing, apparently a private party. "No dancing on the Sabbath," said the patrolman. "This is Sunday and no one does a shimmy or toddle today in a public dance hall," said the cops as the disappointed couples halted and the music stopped in the midst of a saxophone solo.

Will Land up Patrol. Police held that no money was being paid by the dancers and the violation was not severe enough to warrant arrest.

What is going to be the last of dancing here on Sunday or we will lead up the patrol," it was said at the police station on Monday.

## HARDING CALLS UPON WORLD TO LARM

(Continued from Page 1)

We have not as yet had a formal reply from the government of Japan, but we have good reason to hope it will be in the same sense.

"Now that these views have been received, I am glad to be at liberty to inform you fully regarding the course which the discussion of the subject will take."

"I do this with particular satisfaction, because it will show how very valuable a step forward we have been able to take by common action, in the sphere of international affairs."

Cheer Chinese Reference. "The broad lines of the Imperial policy, in the Pacific and the Indian Ocean, are the subject to which we addressed ourselves, having special regard to the Anglo-Japanese agreement, the future of China and the nature of the Chinese position in the relations of the British empire with the United States. We were guided in our deliberations by three main considerations."

In Japan we have an old and proven ally. The agreement, now of 20 years' standing between us, has been of great benefit, not only to our country, but to the peace of the Far East. In China we have a numerous people of great potentialities, who esteem our friendship highly, and whose welfare we desire to assist and advance."

This statement of the prime minister elicited cheers from the house.

ENGLISH PRESS PLEASED OVER HARDING PROPOSAL. London—Newspapers of London printed reports of the president's proposal Monday morning, giving the news the parts of utmost importance in their columns and what editorial comment there was, was most appreciative of Mr. Harding's action.

China would be admitted to the conference for the purpose of settling the question of the condition of the Eastern problems and there was a feeling here that the discussions would bring about a definite understanding which would include virtually the whole field of international relations.

George Harvey, American ambassador to Great Britain, is understood to have conveyed President Harding's proposal to Prime Minister Lloyd George at Chislehurst Court, Sunday. Lloyd George, who was spending the week-end with Mr. Lloyd George, joined with him in heartily receiving Mr. Harvey and voicing appreciation of Mr. Harding's action.

Further comment would appear to indicate deep gratification on the part of the British people on prospects of a disarmament. It being felt that such a meeting would allow the difficulties of understanding a way that the Anglo-Japanese alliance, to which there seems to have been a rising tide of opposition, internal affairs in England at once reflect the relief felt by the limitation of armaments idea, which was here, and the confidence that this would have the interest of the people throughout this country.

FRANCE PLEASED BUT DOUBT OF OUTCOME. Paris—Sheldon Whitehouse, counselor of the American embassy, called at the French foreign office just before noon Monday and talked with Mr. De Broussard, director of political affairs, on the possibility of holding a conference on disarmament. Mr. Whitehouse delivered no document in this connection, engaging in a tentative conversation.

Official comment on President Harding's initiative for a conference on the limitation of armaments is withheld, pending receipt of the official invitation, but unofficial opinions gathered in official circles, are to the effect that the invitation is one is received.

The attitude of the French government, however, is said to be unchanged since the last meeting of the League of Nations last December by Leon Bourgeois, France. It is expected, it is said, would be glad to receive the invitation. The heavy expense involved as she can safely do so, but any decision must depend on absolute security from the east.

Show Times and Troubles. The Upper Silesia troubles and the nationalist reaction in certain parts of Germany are cited as yet another factor in the face of Germany. French opinion is particularly exercised over the continued agitation by the German manifestos the evacuation of Upper Silesia after the German forces under General von Hecker.

In this connection it is declared that, since the assassination of Mr. J. P. Morgan, the French officers there have been besieged by menacing crowds, being saved only by police intervention. The officials declare that of the 40,000 troops who were under General Von Hecker in Upper Silesia, only 20,000 were withdrawn.

## GIRLS! CHANCE FOR OUTDOOR VACATION

How to live outdoors, sleep on a double decker, wear overalls, pick berries and be the best sport of the bunch—all this in the program for the cherry picking camp which is to be conducted by the Y. W. C. A. in Door County, near Sturgeon Bay, Wisconsin, this summer.

There is still room for a few more pickers. Any girls interested in this may learn more by applying to the local Y. W. C. A.

## SUMMER SALE HERE DOUBLES BUSINESS

Merchants Declare First Day Showed Wonderful Results in Number of Purchases.

Expressions of satisfaction of some of the leading Janesville merchants indicate that the lull in the purchases of men and women of the city were broken by the first day of the Mid-Summer sale which will continue throughout this week.

"The response of the city and outside trade to the Mid-Summer sale was wonderful," declared George Niemer, of T. F. Darts company. "People bought freely and were quick to recognize the downward revision of prices. The 50 to 10 per cent reduction in the prices of dry goods and women's ready-to-wear acted as a stimulus to buying."

Does Double Business. W. R. Duggindien, president of Osborn and Duggindien, asserted that considering present conditions Saturday's sale was satisfactory. The amount of business ordinarily done on this day was doubled.

D. J. Luby, the shoe merchant, declared that business was very good Saturday and that he was surprised by the crowds which crowded his store to take advantage of the bargains offered.

"While business was not what it used to be, the sale had a tendency to loosen up the buying public's purses," said Louis Levy, of the Golden Eagle.

"This is a new plan entirely," says Miss Frey. "Although the Y. W. C. A. has conducted such camps for the boys, we have never tried it before for the girls; so that Associations all over the country are watching with interest to see how we succeed."

There is still room for a few more pickers. Any girls interested in this may learn more by applying to the local Y. W. C. A.

"Cherry Pick" is to be a camp where 150 girls, between the ages of 16 and 20, may come and earn their vacations and a little spending money by picking cherries for the farmers. Final arrangements for the opening of the first period of the celebration for this summer on Thursday are being made. J. A. Steiner, general secretary of the Y. M. C. A. and a Rotarian is handling the commission for the first period.

Automobiles will be used to transport the 40 boys to the camp Thursday morning. A. C. Preston, boys' work secretary, will be in charge and has selected eight boys to assist him. They are Chad Newman, Robert Grubb, Theodore Powers, William Miller, Roy Meyer, Kenneth Black, Ted Griffee and Earl Jensen.

A program of work and play is being worked out by Mr. Preston. There will be hikes, nature study and other sports, including in which every boy will be interested.

## LICENSE FEES UP TO CITY COUNCIL

Other Important Matters Before Body at Monday Night Meeting.

Janesville's city council Monday night will have the task of fixing the license fee for the soft-drink establishments which will sell beverages containing one-half of one per cent of alcohol. Along with this the council will have several other important matters, including the parking ordinance of the Chamber of Commerce.

City Attorney Roger C. Cunningham has data on hand which he will present to the council on the new prohibition law.

It is expected the city administration will fix the license fee and other provisions of the ordinance to regulate the "dry-saloons" and conform with the state law.

See Special Meeting. Since there are no other regular meetings this month, July 25, it is probable the council will hold a special meeting within the next two weeks to take up the license ordinance and meet with the board of education to consider awarding the contract for the new high school.

The council can pass the license ordinance by suspending the rules and making the legislation effective Aug. 1, when the 30 days grace, allowed by the prohibition commissioner, expires.

The vacation of several streets along General Motors property, including South Pearl, South Washington, South Terrace and Cedar, is due to be considered Monday night.

Parking Ordinance. The parking ordinance of the Chamber of Commerce will get its first breath of life at the meeting. The request for free sprinkling of streets will also come up. In view of recent utterances of the city's financial condition, it is not expected the request will stand a ghost of a show.

The troublesome milk ordinance may come up for another bailing in open discussion.

There will be the usual city reports and it is expected there will be an explanation of the financial stress of the city and the need of economy.
